

ABSTRAK

AI KIKA HAKIKI. 2023. **Hubungan *Self Confidence* dan *Self Efficacy* terhadap Kemampuan Komunikasi Peserta Didik Pada Pembelajaran Biologi di Kelas X MIPA 1 dan X MIPA 2 SMA Negeri 7 Tasikmalaya.** Jurusan Pendidikan Biologi, Fakultas Keguruan dan Ilmu Pendidikan, Universitas Siliwangi.

Tujuan penelitian ini adalah untuk mengetahui (1) hubungan antara *self confidence* terhadap kemampuan komunikasi, (2) hubungan antara *self efficacy* terhadap kemampuan komunikasi, (3) hubungan antara *self confidence* dan *self efficacy* terhadap kemampuan komunikasi peserta didik pada pembelajaran biologi di kelas X MIPA 1 dan X MIPA 2 SMAN 7 Tasikmalaya. Metode penelitian yang digunakan dalam penelitian adalah korelasional dengan populasi seluruh kelas X MIPA SMAN 7 Tasikmalaya 2021/2022. Sampel yang digunakan dipilih dengan menggunakan teknik *purposive sampling* yaitu kelas X MIPA 1 dan X MIPA 2. Instrumen yang digunakan yaitu kuesioner untuk mengukur *self confidence* sebanyak 30 pernyataan, *self efficacy* sebanyak 36 pernyataan dan kemampuan komunikasi verbal sebanyak 35 pernyataan. Analisis data menggunakan korelasi *pearson product moment* dilanjut dengan uji regresi. Hasil penelitian menunjukkan (1) terdapat hubungan antara *self confidence* terhadap kemampuan komunikasi, dengan koefisien korelasi (r_1) yang diperoleh sebesar 0,430 dan kontribusi yang diberikan sebesar 18,5%, (2) terdapat hubungan antara *self efficacy* terhadap kemampuan komunikasi, dengan koefisien korelasi (r_2) yang diperoleh sebesar 0,449 dan kontribusi yang diberikan sebesar 20,2%. Dan (3) terdapat hubungan antara *self confidence* dan *self efficacy* terhadap kemampuan komunikasi peserta didik pada pembelajaran biologi, dengan koefisien korelasi (R) yang diperoleh sebesar 0,536 dan kontribusi yang diberikan sebesar 28,7%. Berdasarkan koefisien korelasi yang diperoleh pada setiap tujuan penelitian, maka koefisien interpretasi dalam penelitian ini tergolong hubungan korelasi yang sedang.

Kata Kunci : *Self Confidence*, *Self efficacy*, Kemampuan Komunikasi, Biologi, Korelasional.

ABSTRACT

AI KIKA HAKIKI. 2023. The Relationship Between Self Confidence and Self Efficacy on Studens' Communication Skills in Biology Learning in Classes X MIPA 1 and X MIPA 2 SMA Negeri 7 Tasikmalaya. Departement of Biology Learning, Faculty of Theacher Training and Education, Siliwangi University.

The purpose of this study was to find out (1) the relationship between self-confidence and communication skills, (2) the relationship between self-efficacy and communication skills, (3) the relationship between self-confidence and self-efficacy on students' communication skills in biology class X MIPA. 1 and X MIPA 2 SMAN 7 Tasikmalaya. The research method used in this study was correlational with the population of all X MIPA classes at SMAN 7 Tasikmalaya 2021/2022. The sample used was selected using a porposive sampling technique, namely class X MIPA 1 and X MIPA 2. The instruments used were a questionnaire to measure 30 statements of self-confidence, 36 statements of self-efficacy and 35 statements of verbal communication skills. Data analysis used pearson product moment correlation followed by a regression test. The results of the study show (1) there is a relationship between self-confidence and communication skills, with a correlation coefficient (r_1) obtained of 0.430 and a contribution of 18.5%, (2) there is a relationship between self-efficacy and communication skills, with a correlation coefficient (r_2) obtained was 0.449 and the contribution made was 20.2%. And (3) there is a relationship between self-confidence and self-efficacy on students' communication skills in biology learning, with a correlation coefficient (R) obtained of 0.536 and a contribution of 28.7%. Based on the correlation coefficient obtained for each research objective, the interpretation coefficient in this study is classified as a moderate correlation.
