

ABSTRAK

Astriani Safarina, 2023. **SOSIALISASI FORUM GENERASI BERENCANA (GENRE) SEBAGAI UPAYA PENCEGAHAN RESIKO STUNTING (Studi Pada Remaja Usia 15-24 Tahun di Desa Sindangsari Kecamatan Cikoneng Kabupaten Ciamis)**. Jurusan Pendidikan Masyarakat, Fakultas Keguruan dan Ilmu Pendidikan, Universitas Siliwangi, Tasikmalaya.

Indonesia menjadi negara dengan prevalansi stunting kelima terbesar di dunia, oleh sebab itu stunting merupakan masalah kesehatan masyarakat yang harus ditangani secara serius. Pemerintah melakukan upaya pencegahan resiko stunting kepada remaja melalui Sosialisasi Forum Generasi Berencana (GenRe) di Desa Sindangsari Kecamatan Cikoneng Kabupaten Ciamis. Tujuan penelitian ini untuk memperoleh data terkait proses sosialisasi Forum Generasi Berencana (GenRe) sebagai upaya pencegahan resiko stunting. Metode yang digunakan dalam penelitian ini menggunakan pendekatan kualitatif deskriptif. Teknik pengambilan data menggunakan observasi, wawancara dan dokumentasi. Hasil penelitian berdasarkan teknik yang digunakan memperoleh data bahwa proses sosialisasi Forum Generasi Berencana (GenRe) sebagai upaya pencegahan resiko stunting berdasarkan teori proses sosialisasi tiga tahapan yang meliputi tahap persiapan (*preparatory stage*), tahap siap bertindak (*game stage*), dan tahap penerimaan norma kolektif (*generalize other*) benar adanya dan dilalui serta menghasilkan pemahaman remaja mengenai upaya pencegahan resiko stunting melalui edukasi yang diberikan dalam sosialisasi Forum Generasi Berencana (GenRe). Simpulan penelitian ini yaitu melalui sosialisasi Forum GenRe, remaja tidak hanya mendapatkan edukasi pencegahan resiko stunting, tetapi juga mempunyai perencanaan kehidupan baik dalam perencanaan pendidikan, perencanaan karir, dan persiapan menjadi anggota masyarakat.

Kata Kunci: Forum GenRe, Pencegahan Resiko Stunting, Proses Sosialisasi.

ABSTRACT

*Astriani Safarina, 2023. **SOCIALIZATION OF FORUM GENRE (GENERATION PLANNING) AS AN EFFORT TO PREVENT THE RISK OF STUNTING (a study on adolescents aged 15-24 years in Sindangsari Village, Cikoneng District, Ciamis Regency. Department of Community Education, Faculty of Teacher and Education, Siliwangi University, Tasikmalaya.***

Indonesia is a country with the fifth highest prevalence of stunting in the world, therefore stunting is a health problem that must be taken seriously. The government is making efforts to prevent the risk of stunting through socialization of GenRe Forums, in Sindangsari Village, Cikoneng District, Ciamis Regency. The purpose of this study was to obtain data related to the socialization process of GenRe Forums as an efforts to prevent stunting risk. The method used in this study using observation, interviews, and documentation. The results of the research based on the technique used to obtain data which can be concluded that the process of socializing the GenRe Forums as an effort to prevent the risk of stunting is based on the theory of the process of socialization three stages is preparatory stage, game stage, and generalize other it's true and passed and generates youth understanding through the education provided in the socialization of GenRe Forums. The conclusion of this study is that through socializations of GenRe forum, teenagers not only receive stunting risk prevention education, but also have life plants, both educational planning, career planning, and preparation to become a member of society.
