

ABSTRAK

CHOERUNISA NABILAH IBRAHIM. 2023 **Pengaruh *Model Pembelajaran Project Based Learning Tipe Market Place Activity* berbantu *Mind Mapping* Terhadap Kemampuan Berpikir Kreatif Peserta Didik Pada Mata Pelajaran Sejarah Peminatan Dalam Materi Pokok Respon Bangsa Indonesia Terhadap Imperialisme dan Kolonialisme Di Kelas XI IPS 3 SMAN 5 Tasikmalaya Semester Genap Tahun Ajaran 2022-2023.** Jurusan Pendidikan Sejarah. Fakultas Keguruan Ilmu Pendidikan. Universitas Siliwangi

Penelitian ini bertujuan untuk mengetahui Pengaruh *Model Pembelajaran Project Based Learning Tipe Market Place Activity* berbantu *Mind Mapping* Terhadap Kemampuan Berpikir Kreatif Peserta Didik Pada Mata Pelajaran Sejarah Peminatan Dalam Materi Pokok Respon Bangsa Indonesia Terhadap Imperialisme dan Kolonialisme Di Kelas XI IPS 3 SMAN 5 Tasikmalaya Semester Genap Tahun Ajaran 2022-2023. Adapun yang melatarbelakangi penelitian ini adalah pada saat peneliti melaksanakan pengamatan terhadap kegiatan pembelajaran sejarah peminatan di kelas XI IPS 3 SMAN 5 Tasikmalaya masih terdapat peserta didik yang kurang dalam kemampuan berpikir kreatif. Penelitian ini menggunakan pendekatan kuantitatif metode quasi eksperimen. Sampel dalam penelitian ini adalah kelas XI IPS 1 sebagai kelas kontrol dan kelas XI IPS 3 sebagai kelas eksperimen. Instrumen dalam penelitian ini berupa tes hasil belajar peserta didik menggunakan jenis soal esai dengan 14 butir soal. Teknik analisis data dibantu dengan program IBM Statistic 25. Teknik pengolahan data menggunakan uji validitas, uji reliabilitas, taraf kesukaran, uji daya pembeda, uji normalitas, uji hipotesis dan pengolahan N-Gain. Hasil penelitian ini merupakan adanya pengaruh kemampuan berpikir kreatif peserta didik yang menggunakan model pembelajaran Market Place Activity dan peserta didik yang menggunakan model STAD. Berdasarkan hasil perhitungan uji t paired sample mendapatkan Sig (2-tailed) sebesar $0.000 < 0.05$ yang berarti H_0 ditolak dan H_1 diterima, yang berarti terdapat pengaruh model pembelajaran *project based learning* tipe *market place activity* berbantu *mind mapping* terhadap kemampuan berpikir kreatif peserta didik.

Kata Kunci : Berpikir kreatif, Mind Mapping, Model Pembelajaran Market Place Activity, Model Pembelajaran Project Based Learning.

ABSTRACT

CHOERUNISA NABILAH IBRAHIM. 2023. The Influence of the Project Based Learning Learning Model Market Place Activity Type Assisted by Mind Mapping on the Creative Thinking Ability Students in History Subjects Specialization in the Main Subject of the Indonesian Nation's Response to Imperialism and Colonialism in Class XI IPS 3 SMAN 5 Tasikmalaya Even Semester 2022-2023 Academic Year. Department of History Education. Faculty of Teacher Training in Education. Siliwangi University

This study aims to determine the influence of the Project Based Learning Model Market Place Activity Type assisted by Mind Mapping on the ability to think creatively of students in history subjects specializing in the subject matter of the Indonesian Nation's Response to Imperialism and Colonialism in Class XI IPS 3 SMAN 5 Tasikmalaya Even Semester 2022-2023 Academic Year. As for the background of this, it is at the time that reasearcher are perfroming an observation on the history of study at XI IPS 3 SMAN 5 Tasikmalaya is still a learner with low creative thinking ability .This research used an quantitative approach and quasi experimental method . The samples in this there research were class XI IPS 1 as a control class and class XI IPS 3 as an experimental class. The instrumen in this research is in the form of a test of student learning outcomes using essay question types with 14 questions. Data analysis techniques are assisted by the IBM Statistics 25 program. Data processing techniques use validity tests, reliability tests, difficulty levels, differentiating power tests, normality tests, hypothesis tests and NGain processing. The results of this research are the influence of the creative thinking ability of students who use the Market Place Activity learning model and students who use the STAD model. Based on the calculation results of the paired sample t test get a Sig (2-tailed) of $0.000 < 0.05$ which means H_0 is rejected and H_1 is accepted, Thus there is and influence on the learning model project based learning type of market place activity, helping mind mapping of the student's creative thinking ability.

Keywords : Creative Thinking, Market Place Activity Learning, Mind Mapping, Project Based Learning.
