

## ABSTRAK

Yuli Sri Awaliyah. 2023. **IMPLEMENTASI MODEL PEMBELAJARAN *E-LEARNING* DALAM MEMPERLUAS JANGKAUAN WARGA BELAJAR** (Studi pada Paket C di PKBM Al-Fattah). Jurusan Pendidikan Masyarakat, Fakultas Keguruan dan Ilmu Pendidikan, Universitas Siliwangi, Tasikmalaya.

Pembelajaran secara tatap muka di PKBM Al-Fattah tidak dapat dihadiri oleh semua warga belajar. Salah satu kendalanya yaitu jarak tempat tinggal warga belajar ke PKBM cukup jauh dan mayoritas warga belajar telah bekerja. Penelitian ini bertujuan untuk mengetahui implementasi model pembelajaran *e-learning* dalam memperluas jangkauan warga belajar. Metode yang digunakan dalam penelitian ini adalah metode penelitian deskriptif dengan menggunakan pendekatan kualitatif. Subjek dalam penelitian adalah pengelola, tutor, dan warga belajar. Teknik pengumpulan data melalui observasi, wawancara, dan dokumentasi. Hasil dari penelitian ini adalah PKBM Al-Fattah menerapkan model pembelajaran *e-learning* yaitu pembelajaran *synchronous*, *asynchronous*, dan *blended learning*. Tutor diberi kebebasan oleh pengelola PKBM Al-Fattah dalam memilih media pembelajaran. Tutor memilih media pembelajaran yang interaktif dan mudah dipahami oleh warga belajar. Adapun media pembelajaran tersebut meliputi *Google Meet*, *Zoom Meeting*, *se-TARA Daring*, *Google Classroom*, *Power point*, dan juga video pembelajaran yang di unggah di *channel YouTube* PKBM Al-Fattah. Simpulannya yaitu dengan menerapkan model pembelajaran *e-learning* PKBM Al-Fattah dapat memperluas jangkauan warga belajar dan mempermudah warga belajar dalam mengikuti kegiatan pembelajaran karena pembelajaran dapat diikuti dimana saja serta materi pembelajaran dapat diakses tanpa ada batasan waktu dan tempat.

**Kata kunci : Model Pembelajaran, *E-learning*, Warga Belajar.**

## **ABSTRACT**

*Yuli Sri Awaliyah. 2023. **IMPLEMENTATION OF E-LEARNING LEARNING MODELS IN EXPANDING THE REACH OF LEARNING CITIZENS (Study in Package C at PKBM Al-Fattah)**. Department of Community Education, Faculty of Teacher Training and Education, Siliwangi University, Tasikmalaya.*

*Face-to-face learning at PKBM Al-Fattah cannot be attended by all learning residents. One of the obstacles is that the distance from where the students live to PKBM is quite far and the majority of the learning residents are already working. This study aims to determine the implementation of the e-learning learning model in expanding the reach of learning citizens. The method used in this research is descriptive research method using a qualitative approach. The subjects in the research are managers, tutors, and learning residents. Data collection techniques through observation, interviews, and documentation. The results of this study are that PKBM Al-Fattah applies e-learning learning models, namely synchronous, asynchronous, and blended learning. Tutors are given freedom by PKBM Al-Fattah managers in choosing learning media. Tutors choose learning media that are interactive and easily understood by learning residents. The learning media include Google Meet, Zoom Meeting, se-TARA Daring, Google Classroom, Power point, and also learning videos uploaded on the PKBM Al-Fattah YouTube channel. The conclusion is that by implementing the PKBM Al-Fattah e-learning learning model, it can expand the reach of learning residents and make it easier for learning residents to participate in learning activities because learning can be followed anywhere and learning materials can be accessed without any time and place restrictions.*
