

ABSTRACT

Rafi Muhammad Fauzi. 2023. Development of Pangangonan Hill (Study in Karangjaa Village, Karangjaya District, Tasikmalaya Regency). Departement of Community Education, Faculty Of Science Teacher Training Siliwangi University of Tasikmalaya.

In the development of tourism which is fairly new, there needs to be a good understanding for the implementation of tourism activities in accordance with theory. The theory used in this study is Rochrungsat's theory based on natural and cultural resources, community organization, management, learning The purpose of the study is to determine the Development of Community-Based Tourism in Improving the Economic Welfare of the Community, and to find out the aspects that affect the realization of Tourism Development. The study used descriptive qualitative methods. Data collection techniques use observation, interview and documentation methods. The number of informants in this study was 16 (sixteen) people. The results showed that the existence of (a) Natural and Cultural Resources, showing that with the potential of tourism in Pangangonan Hill can develop and prosper the community's economy, (b) Community Organizations in order to increase the creativity of residents in Pacargantung Hamlet all facilities that are in the process of development can attract visitors so as to improve community welfare from the results of development carried out by community organizations, (c) Management carried out at Pangangonan Hill Tourism Objects is based on administrators who attend training in increasing the level of understanding of tourism object development, and reducing obstacles that exist in Pangangonan Hill, and comes from community input, (d) learning between hosts and visitors at the location there are already banners Appeals but there is no location plan, and for the community itself still has not received empowerment or training provided by the management or government. In conclusion, the development carried out has not been said to be good because there are still infrastructure facilities that are not good, but with the existence of economic tourism objects, the community has a good influence.
