

PREFACE

This thesis comprises the background of why this research was conducted, a literature review, methodology, findings, discussion, conclusions, and suggestions. The research background provides the context of the research, which begins with introducing the issue, the field, the gap, the focus of recent research, problem formulation, research significance, and the aim of the research. The literature review explains a brief about the education challenges, remote areas, and the 'Kampus Mengajar' program. The third chapter presented the research design, setting and participants, data collection, and data analysis. The results of this study are presented in the fourth chapter, which includes data findings and discussion. The last chapter consists of conclusions based on the data findings and suggestions for future researchers dealing with education challenges in remote areas.

This thesis cannot be completed without the support of several people around the researcher. Therefore, the researcher would like to express her sincere gratitude to them in the acknowledgments section. In conclusion, the author welcomes suggestions and constructive criticism from the readers to improve this paper. Finally, the author welcomes suggestions and constructive criticism from the readers to improve this paper. Hopefully, this thesis can be useful and provide benefits to the researcher and readers.
