ABSTRACT

The research objectives were to determine: 1) To find out Economic Value Added (EVA), Market Value Added (MVA), Liquidity, and Stock Returns in companies listed in the LQ45 index on the Indonesia Stock Exchange for the period 2017-2022. 2) To determine the effect of Economic Value Added (EVA), Market Value Added (MVA), and Liquidity partially and simultaneously on Stock Returns in companies listed in the LQ45 index on the Indonesia Stock Exchange for the period 2017-2022. The data retrieval method uses the literature method. The sample in this study was obtained by purposive sampling method. Based on existing criteria, 13 companies were obtained as research samples. The data analysis technique used is panel data regression with Eviews 12. The results showed: 1) Economic Value Added, Market Value Added, Liquidity, and Stock Return have varying values each year. 2) Economic Value Added, Market Value Added, and Liquidity simultaneously have no significant effect on Stock Returns. 3) Economic Value Added partially has an insignificant effect on Stock Returns. Market Value Added partially has a significant effect on Stock Returns. Liquidity partially has an insignificant effect on Stock Returns.
