

## ABSTRACT

**AGUNG DWI KURNIA 2021. *Attitudes of Muktisari Village Youth to Volleyball Sports Activities during the Covid 19 Pandemic.***

*Department of Physical Education. Faculty of Teacher Training and Education. Siliwangi University, Tasikmalaya City.*

*Based on the results of research in the environment around the author, specifically in Muktisari Village, the author discovered the potential of many young people in the field of sports, especially volleyball. After the author conducted research on several fellow youths, the researcher found that in general the youth of Muktisari Village had a good attitude towards practicing ball sports. volleyball. However, when conducting research, the author also found a handful of young people who were less enthusiastic about participating in the training or were even unwilling to participate. However, this did not have a bad impact on the enthusiasm of other young people. Based on the description above, the researcher intends to conduct research with the title **Muktisari Village Youth Attitudes to Volleyball Sports Activities during the Covid 19 Pandemic**. The aim of this research is to determine the attitudes of Muktisari Village Youth in Volleyball Sports Activities during the Covid 19 Pandemic. This research is descriptive research using a survey method with data collection techniques using questionnaires. The subjects of this research were 10% of the total number of youth in Muktisari Village, 573 people, totaling 60 students. The results of this research show that the attitude of the youth of Muktisari Village in volleyball sports activities during the Covid 19 pandemic is in the "high" category with detailed data as follows: 14.2%(9 people) strongly agree (SS), 67.9%( 41 people) agreed (S), 15.7% (9 people) disagreed (TS), and 2.1% (1 person) strongly disagreed (STS).*
