

## ABSTRACT

*Zahra Nur'aini Fasya, 2024. **COMMUNITY PARTICIPATION IN DEVELOPMENT PLANNING IN MANGGAHANG VILLAGE, BALEENDAH DISTRICT, BANDUNG REGENCY.** Department of Community Education, Faculty of Teacher Training and Education, Siliwangi University, Tasikmalaya.*

*The problem of community participation in development planning in Manggahang Village occurs because the community values of Manggahang Village are starting to experience a shift seen from the community's sensitivity to the social environment which is increasingly decreasing. To achieve success in sub-district community development programs, the community must be involved in all series of programs from planning, implementation, to development evaluation, because the community knows the problems and development needs in their area. The aim of this research is to determine the form of community participation in development planning in Manggahang Village. The method used in this research is a qualitative descriptive method. Data collection was carried out using observation, interview and document study techniques. The results of this research show that the form of community participation in Manggahang Subdistrict towards development includes participation in planning which includes contributing ideas and providing opinions, participation in implementing development plans which includes community participation through labor and materials, participation in evaluation which includes implementation of development supervision and complaints. findings from monitoring results, participation in enjoying the results which includes utilizing development results and being responsible for maintaining them so that the benefits can be felt in the long term. The conclusion of this research is that the form of community participation in development planning in Manggahang Village is not only carried out in the process of implementing development plans, but also in the process of planning, evaluating and utilizing development results.*
