

ABSTRAK

Skripsi ini berjudul “**Kondisi Lingkungan Masyarakat Pasca Gempa Bumi di Desa Cibeureum Kecamatan Cugenang Kabupaten Cianjur**”. Skripsi ini ditulis oleh DILLA MA'RIFATILLAH, NPM 202170123, Program Studi Pendidikan Geografi Fakultas Keguruan dan Ilmu Pendidikan, Universitas Siliwangi.

Penelitian ini berlatar belakang bahwa Gempa bumi magnitudo 5,6 di Kabupaten Cianjur pada 21 November 2022 menyebabkan kondisi kerusakan yang signifikan, terutama di Desa Cibeureum. Bencana ini menyebabkan kerugian besar baik dari kerusakan lingkungan, infrastruktur, maupun sosial ekonomi masyarakat. Masalah dalam penelitian ini adalah: (1) Kerusakan lingkungan masyarakat pasca gempa bumi dan (2) Kondisi sosial ekonomi masyarakat pasca gempa bumi di Desa Cibeureum, Kecamatan Cugenang, Kabupaten Cianjur. Tujuan dari penelitian ini adalah mengetahui kerusakan lingkungan masyarakat pasca gempa bumi dan kondisi sosial ekonomi masyarakat pasca gempa bumi di Desa Cibeureum, Kecamatan Cugenang, Kabupaten Cianjur. Metode penelitian yang digunakan dalam penelitian ini yaitu deskriptif kualitatif. dengan teknik pengumpulan data yang digunakan adalah observasi, wawancara, studi pustaka, dan studi dokumentasi. Subjek penelitian ini ketua RT Dusun Cibeureum, ketua RT Dusun Tugu, ketua RT Dusun Loji, ketua Dusun Warung Bawang, sekretaris Desa Cibeureum, dan BPBD Kabupaten Cianjur. Objek penelitian ini kondisi lingkungan masyarakat di Desa Cibeureum Kecamatan Cugenang Kabupaten Cianjur. Hasil penelitian menunjukkan bahwa kondisi lingkungan masyarakat pasca gempa bumi Desa Cibeureum mengalami kerusakan pada komponen air dan tanah, kerusakan tanaman pangan ternak, serta kerusakan tumbuhan dan lahan. Sementara itu, kondisi sosial ekonomi masyarakat juga terpengaruh dengan adanya kehidupan baru, penurunan pendapatan, perubahan pekerjaan, dan kondisi psikologis yang terganggu. Upaya pemulihan melibatkan pembangunan kembali, bantuan bahan pangan, penyediaan air bersih, serta dukungan psikologis dan pemberdayaan ekonomi masyarakat.

Kata Kunci : pasca, kondisi lingkungan, gempa bumi

ABSTRACT

This thesis is entitled “ Post Earthquake Community Environmental Conditions in Cibereum Village Cugenang District Cianjur Regency”. This thesis was written by DILLA MA'RIFATILLAH, NPM 202170123, Geography Education Study Program, Faculty Of Teacher Training and Education, Siliwangi University.

This research is based on the fact that the 5.6 magnitude earthquake in Cianjur Regency on November 21 2022 caused significant damage, especially in Cibereum Village. This disaster caused huge losses in terms of environmental, infrastructure and social economic damage to the community. The problems in this research are: (1) Damage to the community environment after the earthquake and (2) Socio-economic conditions of the community after the earthquake in Cibereum Village, Cugenang District, Cianjur Regency. The aim of this research is to determine the environmental damage to the community after the earthquake and the socio-economic conditions of the community after the earthquake in Cibereum Village, Cugenang District, Cianjur Regency. The research method used in this research is descriptive qualitative. The data collection techniques used are observation, interviews, literature study and documentation study. The research subjects were the head of the Cibereum Hamlet RT, the Tugu Dusun RT head, the Loji Dusun RT head, the Warung Bawang Hamlet head, the Cibereum Village secretary, and the Cianjur Regency BPBD. The object of this research is the environmental conditions of the community in Cibereum Village, Cugenang District, Cianjur Regency. The results of the research show that the environmental conditions of the community after the earthquake in Cibereum Village experienced damage to water and soil components, damage to livestock food crops, as well as damage to plants and land. Meanwhile, people's socio-economic conditions are also affected by new lives, decreased income, job changes and disturbed psychological conditions. Recovery efforts involve rebuilding, food aid, providing clean water, as well as psychological support and community economic empowerment.

Keywords : *post, environmental conditions, earthquake*
