

## **PREFACE**

The research proposal is entitled " A Correlational Study Of Social Media Usage and Students' Vocabulary Mastery." It is submitted as a partial fulfillment of the requirements for attaining a *Sarjana Pendidikan* Degree at the English Education Department, Faculty of Education Science and Teacher's Training, Siliwangi University. The methodology, literature review, and background information are all included in this research proposal. The background data gives an understanding of the topic, a gap, how the challenges are formulated, the importance of the research, and its goals. The literature review briefly discusses the information related to social media usage and students' vocabulary mastery. Correlational research is the method of research used in this investigation.

I understand that this study suggestion is still far from ideal. I therefore invite readers' constructive feedback and recommendations for how to make this writing better. Hopefully, both the audience and I will find value in this research proposal.
