

ACKNOWLEDGEMENTS

In the name of Allah, I express my deepest gratitude for his guidance and blessings throughout this challenging journey. It is by his grace and mercy that I have been able to complete my thesis entitled “Enhancing English Vocabulary Through the Audio-Lingual Method: Classroom Action Research.” This thesis is submitted to accomplish the requirements for the *Sarjana Pendidikan* Degree. Without the assistance and encouragement of others, it would have been unattainable for me to successfully accomplish my thesis. Thus, I would like to extend my heartfelt appreciation to:

1. The honorable *Dr. Yusup Supriyono, M.Pd.*, as the Head of English Education Department, Siliwangi University, Tasikmalaya, and as my second supervisor who has given guidance during this thesis writing journey;
2. The best lecturer, *ibu Metty Agustine Primary, S.Pd., M.Pd.*, as my first supervisor to guide and help during this thesis writing journey;
3. All lecturers of the lecturers of English Education Department, Faculty of Educational Sciences and Teachers’ Training, Siliwangi University, Tasikmalaya;
4. My beloved students, class 9I, who participated in my thesis, and the best teachers, *pak Yayan Saofyan Saury, S.Pd., M.Pd.*, and *bu Ai Reni S.Pd.*, as English teachers in one of the junior high schools in Tasikmalaya, and as *guru pamong* in this research, have given me advice, motivation, strength, and suggestions in my research journey.
5. My lovely family; my mom and my dad, thank you for always being my pillars of strength and for instilling in me the value of education. Your sacrifices and unwavering support have made it possible for me to pursue my academic.
6. To my sisters, thank you for your encouragement, and belief in my abilities. Your unwavering support and words of wisdom have been a source of inspiration for me.
7. My lovely friend until Jannah (insyaallah), Tassa Ilma, and Angelica Arifin. I am forever grateful for our friendship, and I look forward to sharing many more

milestones and adventures together. This thesis would not have been the same without your support. Once again, I am truly fortunate to have you as my best friend, not only during this thesis journey but throughout all aspects of my life. Our friendship has been a source of strength, laughter, and unwavering support.

8. To my squad of wonderfully weird friends; Nadya Sri, Raisa Janu, Sephia Maharani, Melinda Rahmat, Winda Wulandari, and Trie Lestarie. Thanks for being the perfect blend of chaos and laughter. Life wouldn't be the same without you!
9. My best partner Adi Ahmad Arrasid, thank you for being a source of inspiration and motivation. Your positive attitude, your kindness, and your constant encouragement have pushed me to reach new heights and overcome obstacles.
10. My beloved partners in research in the MBKM *mandiri* program, Salma, Aghnia, and Raihani, thank you for being my confidant, my cheerleader, and my rock. I am grateful for the countless hours we spent together, whether it was discussing ideas, brainstorming, or simply providing a much-needed break from the demands of this thesis. Your presence and positive energy have made this journey more enjoyable and fulfilling.
11. Lastly, for myself, thank you for surviving this roller coaster journey. Your tears, struggles, and efforts to attain your degree weren't easy. Now, it is time for you to say "goodbye" to the last episode as a college student.

After dedicating considerable time and effort to the completion of this thesis, it has become evident that it does not meet the standards of perfection. Therefore, the author welcomes any criticism or suggestions from readers to enhance its overall quality. Hopefully, this thesis provides benefits and advantages to both the author and the readers.
