Kepada: andhangs@unsil.ac.id

25 Juli 2019 12.32

Mr. Asep Andang:

Thank you for submitting your manuscript entitled "Harmonic Reduction on Electric Power Grid Using Shunt Hybrid Active Power Filter with FCS Model Predictive Control" to our journal International Review on Modelling and Simulations (IREMOS).

With the online journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Manuscript URL:

[https://www.praiseworthyprize.org/jsm/index.php?journal=iremos&page=author&op=submission&path\[\]=17891](https://www.praiseworthyprize.org/jsm/index.php?journal=iremos&page=author&op=submission&path[]=17891)

Username: andhangs

and clicking on My Journals->Active submissions.

With this submission the review process starts.

According to the review procedures, your proposal will be send to the Editor-in-Chief that, after evaluated the publication suitability of the paper, will indicate three reviewers for a full evaluation.

More info regarding the review process can be found at the following link:

<http://www.praiseworthyprize.org/jsm/index.php?journal=iremos&page=about&op=editorialPolicies#peerReviewProcess>

If you have any questions, please don't hesitate to contact me. In all the correspondence please indicate in the subject of your e-mail the identification number of the paper that is Id 17891.

Thank you for considering this journal as a venue for your work.

Best regards,

Editorial Staff
International Review on Modelling and Simulations (IREMOS)

Kepada: andhangs@unsil.ac.id

13 Januari 2020 18.41

Dear dr. Asep Andang,

First of all, we apologize for the very lengthy review period.

Manuscript ID 17891 entitled "Harmonic Reduction on Electric Power Grid Using Shunt Hybrid Active Power Filter with FCS Model Predictive Control" which you submitted to our Journal "International Review on Modelling and Simulations (IREMOS)" has been reviewed. The comments of the reviewer(s) are included at the bottom of this email.

The reviewer(s) have recommended a MAJOR REVISION. This is an opportunity for you to respond to their major concerns and to incorporate improvements in the paper according to their suggestions. It is also an opportunity for you to add new results. We normally only permit one major revision before an accept or reject decision is made. So please take the concerns of the reviewers seriously.

Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript within two weeks from the date of this email.

If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission. You should revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the colored text in red. Once the revised manuscript is prepared, you can upload it and submit it through your on-line submission system. In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewer(s).

Once again, thank you for submitting your manuscript to our Journal and I look forward to receiving your revision.

Sincerely,
Dr. Santolo Meo, Editor-in-Chief of International Review on Modelling and Simulations (IREMOS)
santolo.meo@unina.it

Reviewer Responses:

After a complete review of the article, we strongly suggest the editor and author to undergo a major revision. A revised version after evaluation can be considered for publication.

Below the summary of the main remarks:

- Acronyms should be avoided in the title and abstract and however you should refer to them only after they have been defined.
- English is understandable but needs correction of grammatical errors and style.
- Some non-English words are still present in the text and/or in the figures: please check carefully and proof all the document.
- The scheme in figure 6 could be replaced by a block diagram representative of the simulated circuit in the simulation environment.
- The nomenclature list seems to be incomplete.
- At the end of the Introduction add a paragraph on how the rest of the

paper is organized and developed, typically a summary on the rest.

- The conclusion is extremely weak. In the Conclusions, the authors should state the scope and the aims of this investigation, along with important research directions on this issue.
- The reference list is rich enough but partially outdated. 50% of the references to be from 2017-2019 are expected. We strictly encourage the authors to visit our wide database of titles where they could search for references, at the page <http://www.praiseworthyprize.org/jsm/index.php?journal=index&page=search>
- All the electrical scheme could be improved. The authors could adopt some advanced graphic tool in order to draw the circuits, such as Visio or Autocad.
- Please try to argue the best behaviour of your technique respect to other already present in the literature.

For any questions don't hesitate to contact us.

Best regards,

Editorial Staff

Dear dr. Mr. Asep Andang,

Manuscript ID 17891 entitled "Harmonic Reduction on Electric Power Grid Using Shunt Hybrid Active Power Filter with FCS Model Predictive Control" which you submitted to our Journal "International Review on Modelling and Simulations (IREMOS)" has been reviewed. The comments of the reviewer(s) are included at the bottom of this email.

The reviewer(s) have recommended a MAJOR REVISION. This is an opportunity for you to respond to their major concerns and to incorporate improvements in the paper according to their suggestions. It is also an opportunity for you to add new results. We normally only permit one major revision before an accept or reject decision is made. So please take the concerns of the reviewers seriously.

Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript within two weeks from the date of this email.

If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission. You should revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the colored text in red. Once the revised manuscript is prepared, you can upload it and submit it through your on-line submission system. In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewer(s).

Once again, thank you for submitting your manuscript to our Journal and I look forward to receiving your revision.

Sincerely,
Dr. Santolo Meo, Editor-in-Chief of International Review on Modelling and Simulations (IREMOS)
santolo.meo@unina.it

Reviewer Responses:

The following remarks should be still satisfied:

1- Although many corrections have been done to the paper, improving it, the english still contains many grammar mistakes that make the paper unacceptable for publication.

It is strongly recommended to check carefully all the grammar and the style of the paper because there are some parts not clear in the text of your paper.

If you cannot correct them by your self, you can ask to purchase our service "English Language Editing" contacting our staff by e-mail (info@praiseworthyprize.com)

More information can be found to http://www.praiseworthyprize.com/english_service.htm

2-In some figures there are still words not in english. OFr example non liner). Please correct.

3- The Nomenclature section is incomplete; it should list all the symbols

adopted in the manuscript (all the symbols used in the equations of the paper and all the acronyms present in the paper);

For any questions don't hesitate to contact us.

Best regards,

Editorial Staff

Dear Dr. Ardang

thank you for your e-mail.

You can decide to purchase the english editing service at the cost of 60 euros.

In such case you should revise the paper according to all other requests except for the english and upload it entering in your profile paper web page..

After received the revised version that reflects all the changes requested, the paper will be accepted and you will receive all the instructions for proceeding to the publication steps.

In the order form you should select the english editing service together with the print or electronic journal of paper. After received your payment and related documents, the final version of paper will be forwarded to our staff for english editing and who will correct and check eventual problems in the english. Then you will receive a final draft (not formatted in the final version of the Journal.- it will be done in a second time) for a double check and clarifications if needed

Mr. Asep Andang:

It is my great pleasure to inform you that your paper ID 17891: "Harmonic Reduction on Electric Power Grid Using Shunt Hybrid Active Power Filter with FCS Model Predictive Control" has been accepted and will be published on the International Review on Modelling and Simulations (IREMOS) after the english revision by PWP staff.

If you want to publish the paper on the current issue of the Journal, please, accomplish the following requirements as soon as possible:

1. You should order and pay for the Article Publication Fee (you should buy the e-journal or the hard copy containing your paper) by entering into your restricted area with your username and password at:
<http://www.praiseworthyprize.org/jsm/index.php?journal=iremos&page=login>, going to the Summary section of your accepted paper and clicking on the "PAY NOW" link.

(Please select the english editing service in the order form).

2. You should download, fill in, sign and return, by e-mail to info@praiseworthyprize.it the following documents:

2.1 COPYRIGHT FORM at:

<http://www.praiseworthyprize.org/public/documents/copyright%20Praise%20new.pdf>

2.2 TREATMENT OF PERSONAL DATA at:

http://www.praiseworthyprize.org/public/documents/Treatment%20of%20Personal%20data%20_2_.pdf

2.3 eventually the PERMISSION REQUEST FORM at:

<http://www.praiseworthyprize.org/public/documents/COPYRIGHT%20PERMISSION%20PRAISE.pdf>

for the reproduction of any figure, table or extensive (more than fifty words) extract from the text of a source that is copyrighted or owned by a party other than Praise Worthy Prize or of the Author.

Sincerely,

Dr. Santolo Meo, Editor-in-Chief of International Review on Modelling and Simulations (IREMOS)
santolo.meo@unina.it

Warning for print deliveries:

In case you decide to order the print copy of the journal, we point out that the shipping will be made with the "regular mail" service, without the possibility to monitor the delivery. In this case the delivery time will take around two months. Otherwise, you can decide to receive it with a "registered mail" service, that will have a cost around 35.00 euros (for one print copy) instead of about 25.00 euros requested for the regular mail. In case of "registered mail" service, the delivery can be monitored and the time delivery is within 30 working days.

Summary for one print copy:

Shipping mode	Cost	Delivery time	Delivery monitoring

Regular mail	25.00 euros	30 working days	No
Registered mail	35.00 euros	30 working days	Yes

Please note that if you will not receive the copy, it will not be possible to send it to you again for free. Anyway, in the case of lost delivery, we will send you the proof of the shipping and the password to download the electronic version of the issue where your paper has been published.

N.B. Please verify that all the metadata indicated in the webpage of your submission (in the Summary section) are updated respect to the final version of the paper you've uploaded.
