Assalamualaikum Wr.Wb

Yth. Bapak/Ibu Reviewer

Klarifikasi pada jurnal ilmiah ini berkaitan dengan indeks kemiripan terutama abstrak yang ditemukan 100% sama dengan sumber internet www.pubs.ascee.org. karena jurnal Biological Environment and Pollution berada di bawah publisher tersebut sehingga barangkali seolah terdeteksi sama persis dengan sumber internet yang berbeda dengan web jurnalnya. Sehingga, insyaallah tidak ada pelanggaran integritas akademik yang dilakukan. Untuk memastikan bahwa artikel yang Saya buat terpubliksi oleh publisher ASCEE, Ibu/bapak reviewer dapat membuka link berikut <https://pubs.ascee.org/index.php/bioenvipo/article/view/383>. Selain itu, Saya juga lampirkan link dan tangkapan layar yang menunjukkan bahwa jurnal Biological Environment and Pollution terdaftar di publisher ASCEE pada link <https://pubs.ascee.org/>

The screenshot shows the ASCEE Journals website. The header includes the ASCEE Journals logo and navigation links for Register and Login. The main content area features a section titled "Recent Trend in Agricultural Science" with a detailed description of the journal's focus on agricultural research. Below this, there is a section for "Neural Networks Summary" which includes a thumbnail image of a journal cover titled "Signal and Image Processing Letters".

Biological Environment and Pollution is a scientific journal that focuses on the delivery of information on the results of scientific research in the field of Biology. Articles are published with an **open access policy**. All Articles are processed with **double-blind peer reviews**; at least two reviewers review all papers according to the article's topic. This journal covers all **biology studies related to environmental pollution**, concerned with **Environment, Pollution, and Toxicology**. This journal is published frequently twice a year, in **June** and **December**.

The manuscript must be original research, **written in English**, and not simultaneously submitted to another journal or conference. Manuscripts that are not by the scope and not English version will not be processed to be published. We also **discourage** manuscripts written **by a single author**. Please, read the [author guideline](#) and write using [the template article](#).
