

ABSTRACT

Since the Covid-19 virus in Indonesia, the Government must immediately take steps to prevent it from spreading further. Both the Central Government and the DKI Jakarta Regional Government have provided maximum performance in dealing with this outbreak. The formation of the Covid-19 Acceleration Task Force to coordinate between the center and the regions and build synergies so that all are under the command of the task force. By referring to Law Number 6 of 2018 concerning Health Quarantine, both the Central and Regional Governments can make a policy that is guided by the legal basis. In the current era of decentralization and regional autonomy, regions should be able to carry out services properly to deal with COVID-19.

This study uses a descriptive qualitative method by prioritizing extracting information using a case study approach. The theory used is decentralization, as the transfer of authority and government functions to analyze the relationship between the center and the regions on the topic of this research.

The results of this study are to coordinate the determination of the Large-Scale Social Restriction policy set by the Minister of Health and coordinate directly with the Head of the Covid-19 Task Force and the Governor of DKI Jakarta based on Law Number 6 of 2018 concerning Health Quarantine. In addition to the law, the Regulation of the Minister of Health of the Republic of Indonesia Number 9 of 2020 concerning Guidelines for Large-Scale Social Restrictions in the Context of Accelerating the Handling of Corona Virus Disease 2019 (COVID-19) has explained how the flow of coordination to establish Large-Scale Social Restrictions policies for areas that are indeed has met the criteria for implementing Large-Scale Social Restrictions. Because it was declared a national disaster, all decisions were made by the Central Government. In this case, the Central Government is the Ministry of Health which makes the decision.
