ABSTRAK

Abstrak – Penjurian foto menjadi salah satu ukur untuk menentukan pemenang dari perlombaan, penentuan pemenang dilakukan dengan perhitungan berdasarkan aspek – aspek foto yang dinilai oleh masing – masing juri. Penggunaan Sistem Pendukung Keputusan (SPK) dibutuhkan untuk mempermudah dalam melakukan perankingan, salah satu metode yang paling relevan adalah Simple Additive Weighting dikarenakan sesuainya dengan proses penilaian yang telah dilakukan di berbagai lomba fotografi, terdapatnya aspek dan bobot membuat penilaian yang diberikan oleh juri semakin lebih detail. Berdasarkan hasil penelitian yang telah dilakukan penerapan metode SAW dalam aplikasi penjurian fotografi berbasis website berhasil dilakukan dengan 100% kesesuaian penilaian.

ABSTRAK

Abstract – Photo judging is one measure to determine the winner of the competition, the winner is determined by calculation based on the photo aspects assessed by each jury. The use of a Decision Support System (DSS) is needed to make it easier to rank, one of the most relevant methods is Simple Additive Weighting because in accordance with the assessment process that has been carried out in various photography competitions, there are aspects and weights that make the assessment given by the jury more detailed. . Based on the results of research that has been carried out the application of the SAW method in a website-based photography judging application has been successfully carried out with 100% conformity of the assessment.
