Reviewer A:

Dear authors,

Thank you for submitting this manuscript that explores the effect of sandy substrates on the prevalence of brittle stars in West Java. This is an interesting and practical study that has some clear outcomes. It has some potential value to readers from an ecological and conservation perspective.

There are some revisions required in order to consider this manuscript for publication. I have included specific feedback on the word document version of the manuscript, please find attached. Make sure that any changes to the manuscript are shown using highlighted text or tracked changes. Additionally, please address the following key areas when making revisions:
