Alam Rahmatulloh:

We have reached a decision regarding your submission to International Journal on Advanced Science, Engineering and Information Technology, "Comparison of JSON and XML Data Formats in Document Stored NoSql Database Replication Processes".

Our decision is to: Revision Required

Please update your abstract into 220-250 words and your reference 70% in (2017-2020) from journal indexed by Scopus. Citation and Reference in Paper must using Mendeley with IEEE Style.

Please submit your revision in 10 days. More than 10 days of paper will be rejected from the system. Re-upload your revision into journal system NOT via email.

Editor

Reviewer A:

Dear Authors,

Thank you for submitting your valuable research findings. However, we still need you to improve the quality of the manuscript according to the reviewer's comments :

We suggest you add the number of pages as required, min 6 pages and the max 11 pages, excluded references

Strictly follow the format style.

Please reduce the plagiarism content to be less than 15% (Please find an attached file)

We require to cite at least 50% of the updating references from the latest 5 years, which is at least 12 references

The abstract consists of 220-250 words, describes the problem statement, objectives, clear methodology, result and a short discussion.

The structure of the article is presented in four sections: INTRODUCTION - THE MATERIAL AND METHOD - RESULTS AND DISCUSSION – CONCLUSION

Please avoid the blank space after each paragraph

Mistakes in English grammar and spelling in sentences should be checked and revised. Or please proofread the article before resubmitting.

English proofreading is required.

Reviewer B:

This paper has good opportunity for future research. However, the problem statement is unclear and the impact of the experimental results is not clearly explained

We are looking forward to the revision. Good luck!

Kind regards

International Journal on Advanced Science, Engineering and Information Technology
