This research aims to analyze the effect of life expectancy, average length of school, domestic investment, and foreign investment on economic growth in West Java Province in 2007-2021. The method used is quantitative descriptive in the form of time series data and takes secondary data obtained from the Central Statistic Agency (BPS) website. The result showed that partially average length of school, domestic investment, and foreign investment has positive and significant effect on economic growth. While life expectancy has a positive effect and no significant effect on economic growth. Simultaneously, life expectancy, average length of school, domestic investment, and foreign investment have a significant effect on economic growth in West Java Province in 2007-2021. The elasticity of economic growth to the life expectancy, domestic investment, and foreign investment are inelastic, while the elasticity of economic growth to the average length of school is elastic.

Keyword: *Economic Growth, Life Expectancy, Average Length of School, Domestic Investment, and Foreign Investment*

ABSTRAK

ANALISIS PENGARUH KUALITAS SUMBER DAYA MANUSIA DAN INVESTASI TERHADAP PERTUMBUHAN EKONOMI DI PROVINSI JAWA BARAT TAHUN 2007-2021

Penelitian ini bertujuan untuk menganalisis pengaruh angka harapan hidup, rata-rata lama sekolah, penanaman modal dalam negeri, dan penanaman modal asing terhadap pertumbuhan ekonomi di Provinsi Jawa Barat tahun 2007-2021. Metode yang digunakan adalah deskriptif kuantitatif berupa data *time series* dan mengambil data sekunder yang diperoleh dari *website* Badan Pusat Statistik (BPS). Hasil penelitian menunjukkan bahwa secara parsial rata-rata lama sekolah, penanaman modal dalam negeri, dan penanaman modal asing masing-masing berpengaruh positif dan signifikan terhadap pertumbuhan ekonomi, sedangkan angka harapan hidup berpengaruh positif dan tidak signifikan terhadap pertumbuhan ekonomi. Secara bersama-sama angka harapan hidup, rata-rata lama sekolah, penanaman modal dalam negeri, dan penanaman modal asing berpengaruh signifikan terhadap pertumbuhan ekonomi. Elastisitas pertumbuhan ekonomi terhadap angka harapan hidup, penanaman modal dalam negeri, dan penanaman modal asing adalah inelastis, sedangkan elastisitas dari pertumbuhan ekonomi terhadap rata-rata lama sekolah adalah elastis.

Kata Kunci: Pertumbuhan Ekonomi, Angka Harapan Hidup, Rata-rata Lama Sekolah, Penanaman Modal Dalam Negeri, Penanaman Modal Asing.
