

## DAFTAR GAMBAR

|              |                                                                      |        |
|--------------|----------------------------------------------------------------------|--------|
| Gambar 2. 1  | Baterai LiFePo4 48volt 100Ah .....                                   | II-2   |
| Gambar 2. 2  | <i>Charge</i> dan <i>Discharge</i> Baterai Sumber: (Minah 2018)..... | II-3   |
| Gambar 2. 3  | Grafik Tegangan <i>Charge</i> Terhadap <i>SOC</i> .....              | II-3   |
| Gambar 2. 4  | Grafik tegangan <i>discharge</i> terhadap <i>SOC</i> .....           | II-5   |
| Gambar 2. 5  | Kondisi <i>Overdischarge</i> Baterai .....                           | II-7   |
| Gambar 2. 6  | <i>State of Charge (SOC)</i> .....                                   | II-9   |
| Gambar 2. 7  | Grafik Deep Of <i>Discharge</i> .....                                | II-11  |
| Gambar 2. 8  | Grafik kedalaman <i>DOD</i> terhadap siklus baterai .....            | II-13  |
| Gambar 2. 9  | Arduino Uno .....                                                    | II-15  |
| Gambar 2. 10 | ACS758 .....                                                         | II-16  |
| Gambar 2. 11 | Sensor Arus ACS712 .....                                             | II-17  |
| Gambar 2. 12 | Rangkaian Pembagi Tegangan .....                                     | II-18  |
| Gambar 2. 13 | Modul <i>Relay</i> 2 channel.....                                    | II-19  |
| Gambar 2. 14 | <i>Liquid Crystal Display (LCD)</i> .....                            | II-20  |
| Gambar 2. 15 | Mobil Listrik .....                                                  | II-21  |
| Gambar 3. 1  | <i>Flowchart</i> Penelitian .....                                    | III-1  |
| Gambar 3. 2  | Blok diagram sistem.....                                             | III-3  |
| Gambar 3. 3  | <i>Flowchart</i> Sistem.....                                         | III-5  |
| Gambar 3. 4  | <i>Flowchart</i> Initial Kapasitas Baterai .....                     | III-9  |
| Gambar 3. 5  | <i>Wiring</i> Diagram Sistem .....                                   | III-11 |
| Gambar 3. 6  | Pengujian Arduino uno.....                                           | III-16 |
| Gambar 3. 7  | Pengujian <i>LCD</i> .....                                           | III-17 |
| Gambar 3. 8  | Pengujian sensor arus .....                                          | III-18 |
| Gambar 3. 9  | Pengujian ACS758 .....                                               | III-19 |
| Gambar 3. 10 | Pengujian sensor tegangan .....                                      | III-20 |
| Gambar 3. 11 | <i>Flowchart</i> <i>Relay</i> .....                                  | III-21 |
| Gambar 3. 12 | <i>Flowchart</i> Pengujian Micro SD .....                            | III-22 |
| Gambar 4. 1  | Pengujian Arduino <i>LED ON</i> .....                                | IV-2   |
| Gambar 4. 2  | Pengujian Arduino <i>LED OFF</i> .....                               | IV-3   |
| Gambar 4. 3  | Pengujian <i>LCD</i> 20x4 .....                                      | IV-5   |
| Gambar 4. 4  | Pengujian <i>Relay</i> 1 .....                                       | IV-11  |
| Gambar 4. 5  | Pengujian <i>Relay</i> 2.....                                        | IV-12  |
| Gambar 4. 6  | Pengujian Modul Micro SD .....                                       | IV-14  |
| Gambar 4. 7  | Alat Estimasi <i>SOC</i> .....                                       | IV-16  |
| Gambar 4. 8  | Pengujian <i>Charge</i> kapasitas baterai .....                      | IV-19  |
| Gambar 4. 9  | Pengisian penuh ( <i>full charge</i> ).....                          | IV-20  |
| Gambar 4. 10 | Pengujian <i>Discharge</i> kapasitas baterai.....                    | IV-21  |
| Gambar 4. 11 | Pengosongan penuh ( <i>full discharge</i> ) .....                    | IV-22  |
| Gambar 4. 12 | Tampilan saat cut off <i>charge</i> .....                            | IV-25  |
| Gambar 4. 13 | Tampilan cut off <i>discharge</i> .....                              | IV-26  |
| Gambar 4. 14 | Grafik <i>Charge</i> Pengujian 1.....                                | IV-27  |
| Gambar 4. 15 | Grafik <i>Discharge</i> Pengujian 1 .....                            | IV-28  |
| Gambar 4. 16 | Grafik <i>Charge</i> Pengujian 2.....                                | IV-29  |
| Gambar 4. 17 | Grafik <i>Discharge</i> Pengujian 2 .....                            | IV-30  |

|                                                        |       |
|--------------------------------------------------------|-------|
| Gambar 4. 18 Grafik <i>Charge</i> Pengujian 3.....     | IV-31 |
| Gambar 4. 19 Grafik <i>Discharge</i> Pengujian 3 ..... | IV-32 |
| Gambar 4. 20 Grafik <i>Charge</i> Pengujian 4.....     | IV-33 |
| Gambar 4. 21 Grafik <i>Discharge</i> Pengujian 4 ..... | IV-34 |
| Gambar 4. 22 Grafik <i>Charge</i> Pengujian 5.....     | IV-35 |
| Gambar 4. 23 Grafik <i>Discharge</i> Pengujian 5 ..... | IV-36 |
