

## **PREFACE**

This thesis entitled, “The Correlation Between Students’ Speed Reading and Their Reading Comprehension Level of Second Grade at the Department of English Education” is submitted to fulfil one the requirements for getting *Sarjana Pendidikan* degree at Department of English Education, Faculty of Educational Sciences and Teachers’ Training, University of Siliwangi, Tasikmalaya.

This thesis is important and relevant because many students experience difficulties in speed reading and reading comprehension, especially in English text. This study aims to find out the correlation between students’ speed reading and their reading comprehension level of second grade students in the Department of English Education, as well as provide recommendations for effective learning strategies to improve students' reading skills. The result of this study is expected to provide useful data for the development of more effective English learning strategies and assist students in improving their reading skills.

Nonetheless, the researcher can accomplish this with plenty of support from many people. Therefore, the researcher conveys sincere gratitude to them in the acknowledgment section.
