“Take The Risk Or Lose The Chance”

-Marko Halilovic

Embrace opportunities, even if they involve risk. Growth often comes from stepping out of your comfort zone and being willing to make mistakes. Setbacks and failures are valuable learning experiences that can pave the way for future success. Taking calculated risks is often necessary to achieve your goals and reach your full potential.

With deep gratitude, this final project report is dedicated to my mom, father, and beloved siblings. Their prayers, advice, and encouragement have been my primary motivation in completing this work. I'm thankful for their boundless love, understanding, and support. Thank you for always being my safe haven. I hope we continue to share many years together, as you all mean the world to me.
