The objective of the research was to find out the effect of Capital Expenditure, Firm Size, and Growth Opportunity and its impact to Firm Value at PT Aneka Tambang Tbk. The research method used is a quantitative, verificative and explanatory approach. Secondary data were collected using documentation techniques through financial statements available on the company's official websites. The analysis tool used is multiple linear regression analysis. The results of hypothesis testing show that: (1) Capital Expenditure has a negative but insignificant effect on Firm Value (2) Firm Size has a negative and significant effect on Firm Value (3) Growth Opportunity has a positive and significant effect on Firm Value.

Keywords: Capital Expenditure, Firm Size, Growth Opportunity, Firm Value.
