

## DAFTAR TABEL

| Nomor | Judul                                                                      | Halaman |
|-------|----------------------------------------------------------------------------|---------|
| 3. 1  | Operasional Variable.....                                                  | 37      |
| 3. 2  | Variabel dan Konstruk Penelitian .....                                     | 43      |
| 3. 3  | Model Persamaan Struktural .....                                           | 47      |
| 3. 4  | Model Pengukuran .....                                                     | 47      |
| 3. 5  | Indeks Pengujian Kelayakan Model.....                                      | 51      |
| 4. 1  | Confirmatory Factor Analysis Variabel Eksogen .....                        | 65      |
| 4. 2  | Confirmatory Factor Analysis Variabel Endogen .....                        | 67      |
| 4. 3  | Indeks Pengujian Kelayakan Model (Goodness-of-fit).....                    | 71      |
| 4. 4  | Regression Weights: (Group number 1 - Default model) .....                 | 73      |
| 4. 5  | Standardized Regression Weights: (Group number 1 - Default model)<br>..... | 74      |
| 4. 6  | User-defined estimands: (Group number 1 - Default model) .....             | 75      |
