

## DAFTAR TABEL

|                                                                              |       |
|------------------------------------------------------------------------------|-------|
| Tabel 2. 1 Parameter MDP.....                                                | II-7  |
| Tabel 2. 2 Penelitian Terdahulu.....                                         | II-30 |
| Tabel 2. 3 Matriks Penelitian.....                                           | II-56 |
| Tabel 4. 1 (Lingkungan Deep Reinforcement Learning).....                     | IV-5  |
| Tabel 4. 2 (Inisialisasi Deep Reinforcement Learning).....                   | IV-5  |
| Tabel 4. 3 (Dataset Supervised Learning).....                                | IV-8  |
| Tabel 4. 4 (Nilai bobot perbandingan DLR dan SL).....                        | IV-12 |
| Tabel 4. 5 (Kebutuhan Perangkat Keras).....                                  | IV-14 |
| Tabel 4. 6 (Script Untuk Menggerakan Pipa Serta Controlling Level).....      | IV-24 |
| Tabel 4. 7 (Script Burung).....                                              | IV-32 |
| Tabel 4. 8 (Deskripsi parameter - Root Training Configuration).....          | IV-39 |
| Tabel 4. 9 (Deskripsi parameter - konfigurasi pelatihan hyperparameter)..... | IV-40 |
| Tabel 4. 10 (Deskripsi parameter – network setting).....                     | IV-42 |
| Tabel 4. 11 (Deskripsi parameter – reward signal).....                       | IV-42 |
| Tabel 4. 12 (Deskripsi parameter – GAIL reward signal).....                  | IV-42 |
| Tabel 4. 13 (Deskripsi parameter – BC reward signal).....                    | IV-43 |
| Tabel 4. 14 (Hasil Pelatihan Agen - 10000 Episode).....                      | IV-46 |
| Tabel 4. 15 (Grafik Tensorflow 50k).....                                     | IV-50 |
| Tabel 4. 16 (Grafik Tensorflow 100k).....                                    | IV-51 |
| Tabel 4. 17 (Grafik Tensorflow 350k).....                                    | IV-51 |
